# Privacy Policy

for the **NO AI-SLOP** browser extension

**EFFECTIVE** November 17, 2026

**DEVELOPER** FreddyDeveloper

**APPLIES TO** Google Chrome & Chromium browsers

NO AI-SLOP (“**we**,” “**us**,” or “**our**”) is committed to protecting the privacy of its users. This Privacy Policy explains what information the NO AI-SLOP extension handles, where it is kept, and how it is used. The short version: **it works entirely inside your browser and never sends your data to us.**

## AT A GLANCE

**No personal data**
We do not collect your name, email, account details, or any other personally identifiable information.

**No tracking or analytics**
No usage statistics, telemetry, cookies, ads, or third-party trackers of any kind.

**Stays on your device**
Your settings and history are stored locally by your browser, not on our servers.

**You’re in control**
Clear the cache, reset the counter, or uninstall to remove everything at any time.

## 01 Information Collected

NO AI-SLOP **does not collect any personally identifiable information** from its users. We have no servers that receive data from the extension, and we never see what you watch, search for, or hide.

## 02 Data Stored on Your Device

To work, the extension keeps a small amount of data using your browser's built-in extension storage. This data never leaves your browser to reach us.

| WHAT | WHY IT IS KEPT |
|---|---|
| **Your settings**<br>BROWSER SYNC STORAGE | Detection mode, display options, Shorts preference, and the hidden-videos counter. If you use Chrome Sync, Chrome may sync these preferences between your own devices through your Google account. |
| **Blocked channels**<br>BROWSER SYNC STORAGE | The channel names or handles you choose to block. |
| **Check results cache**<br>LOCAL ONLY · 7 DAYS | Video IDs and whether each one carries YouTube's AI label, so the same video is not checked twice. |
| **Recently hidden list**<br>LOCAL ONLY · LAST 40 | Title, channel, and reason for recently hidden videos, shown to you in the extension popup. |
| **False-positive reports**<br>LOCAL ONLY | Videos you mark as "Not AI," so they are no longer hidden. These reports are only shared if you copy and send them yourself. |

## 03 How Videos Are Checked

To find out whether a video carries YouTube's official AI disclosure ("Made with AI"), the extension loads that video's public YouTube page **directly from your browser**, the same way your browser does when you open the video. It reads only the AI disclosure label and discards the rest. No information is sent to us or to anyone other than YouTube.

## 04 Usage Data

NO AI-SLOP **does not collect usage data**: no frequency or duration of use, no features accessed, no crash reports, and no analytics of any kind. The "videos hidden" counter is calculated and stored locally for your eyes only.

## 05 Permissions

- **Storage**: to save your settings and the local data described above.
- **Access to youtube.com and m.youtube.com**: to detect and hide AI-labeled videos on YouTube. The extension does not run on any other website.

## 06 Data Security

We take reasonable measures to keep the extension secure: it handles only the minimum data it needs, and that data stays in your browser's protected extension storage. However, please be aware that no method of transmission over the internet or electronic storage is completely secure, and we cannot guarantee absolute security.

## 07 Third-Party Services

The only third-party service the extension interacts with is **YouTube (Google)**, whose pages it reads to detect AI labels. Your use of YouTube is governed by **Google's Privacy Policy**. NO AI-SLOP uses no other third-party services, APIs, advertising networks, or analytics providers.

## 08 Your Choices

From the extension popup you can clear the cache, reset the counter, and empty your false-positive reports at any time. **Uninstalling the extension removes all of its locally stored data.**

## 09 Changes to this Privacy Policy

We may update this Privacy Policy from time to time. Users will be notified of any changes by updating the "Effective Date" at the top of this policy.
