

Privacy Policy

RecallFlow AI — Chrome Extension

Effective Date: May 4, 2026

Our Commitment to Privacy

FreddyDeveloper ("we," "us," or "our") is committed to protecting the privacy of users of the RecallFlow AI Chrome extension. This Privacy Policy outlines what information RecallFlow AI accesses, how it is handled, and the choices available to you.

Information We Do Not Collect

RecallFlow AI does not collect, transmit, or store any personally identifiable information on external servers. All conversation data saved through the extension remains stored locally on your device using Chrome's built-in storage API. We do not have access to your saved conversations at any time.

Local Data Storage

When you use RecallFlow AI to save an AI conversation, that data is stored exclusively on your local device via Chrome's storage API. This data never leaves your browser unless you explicitly export it as a .md file. You have full control over your data and may delete it at any time through the extension's settings.

Usage Data

RecallFlow AI does not collect analytics, usage statistics, telemetry, or any behavioral data about how you use the extension. No data is sent to FreddyDeveloper or any third-party analytics service.

Exported Files

When you export a conversation as a .md file, that file is saved directly to your device. RecallFlow AI does not upload, transmit, or retain any copy of exported files. What you do with exported files is entirely your responsibility.

Third-Party Services

RecallFlow AI interacts with AI platforms (such as Claude, ChatGPT, Gemini, Grok, and others) solely to read conversation content from the page you are currently viewing, and only when you explicitly trigger a save action. RecallFlow AI does not modify, submit, or interfere with your interactions on those platforms. Users are encouraged to review the privacy policies of those third-party services independently.

Data Security

Because RecallFlow AI stores data locally and does not transmit it externally, your data security depends on the security of your own device and browser. We recommend keeping your browser and operating system up to date.

Children's Privacy

RecallFlow AI is not directed at children under the age of 13. We do not knowingly collect any information from children.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. When we do, we will update the Effective Date at the top of this document. Continued use of the extension after any changes constitutes your acceptance of the updated policy.

Contact

If you have any questions or concerns about this Privacy Policy or RecallFlow AI, please contact us at: admin@freddydeveloper.com

By installing and using RecallFlow AI, you acknowledge that you have read and understood this Privacy Policy.
